

Galliate, 9th March 2020

Dear Partner,

You probably heard about the precautions taken by the Italian government to avoid the diffusion of the COVID-19. In Lombardy, partially Piedmont and other regions public activities (schools, bars, restaurants, events..) have been limited in an attempt to halt the spread of the virus.

In Matica Fintec we take health seriously, therefore we have taken strict precautions also in our plant - located 50 km outside Milan - implementing all the rules and procedures prescribed by the authorities; keeping under constant control our staff and checking visitors that everyday come to our site for working reasons.

According to the government act, all our employees are authorized to reach our production sites without limitations and the same regarding inbound goods and shipments of our systems. Matica Fintec keeps producing and shipping, all around the world, as originally confirmed by our Customer Service.

We will inform you in case of further information and/or changes.

Best regards

Matica Fintec Team
